PERSONAL PROFILE

Enthusiastic and driven Data Science student with a strong passion for artificial intelligence, machine learning, and problem-solving. Dedicated to contributing to meaningful projects while continuously expanding knowledge and skills to align with organizational growth. Known as a quick learner with adaptability, creativity, and a strong commitment to achieving results in collaborative environments.

EXPERIENCE

Intern Data Science

Bank Of Ceylon - (September 2025 - March 2026)

PROJECTS

Agentic AI Framework for Neuro-Marketing Strategy. Generation Based on Cognitive and Behavioral Principles (Currently).

Python (RoBERTa, DistilBERT, scikit-learn), Grok API (xAI), FastAPI, Streamlit, HuggingFace Transformers

- Developed a machine learning pipeline that classifies consumer decision-making behaviour (emotional vs. rational) using fine-tuned RoBERTa (~91% accuracy) with demographic-based meta-learner stacking as part of a **final-year Data Science research project**.
- Generated personalized marketing copy for both decision types using Grok LLM, delivered through a FastAPI backend and Streamlit frontend.
- GitHub Link -**
<https://github.com/Buwanekafernando/R2-DS-005>

House Price Prediction System

Python, Scikit-learn, Pandas, NumPy, Numpy, Matplotlib, Seaborn

- Developed a machine learning model to predict fair house prices based on housing features and market data.
- Implemented regression algorithms and data visualization for price trend analysis.
- GitHub Link-**
<https://github.com/Buwanekafernando/houseprice-fair-prediction>

Data visualization platform

FastAPI, React.js, SQL Server, Chart.js, Pandas

- Developed an interactive business intelligence platform for data analysis and reporting similar to Power BI, leveraging Flask and REST APIs to serve visualisations.
- Implemented dynamic dashboards and real-time data visualisation using Pandas, NumPy, and Plotly Dash with FastAPI for backend data processing
- GitHub Link-**
<https://github.com/Buwanekafernando/BI-DV-platform>

EventCulture Multi AI Agent System

FastAPI, React.js, MySQL, Gemini API, SpaCy, Google Maps API

- Built an AI-powered multi-agent web application using Python and JavaScript frameworks to discover and recommend physical and virtual events across Sri Lanka, orchestrating agentic workflows for data retrieval and personalised recommendations.
- Integrated NLP for advanced intent recognition and Google Maps API for geospatial search, enabling context-aware event discovery with low-latency responses.
- GitHub Link-**
https://github.com/Buwanekafernando/EventCulture-Multi-AI-Agent_System

Data Warehousing & BI Analytics Solution

Power BI, MS SQL Server, Python, Visual Studio

- Designed a data warehouse and BI dashboard to analyze supermarket sales transactions and customer behavior.
- Built ETL pipelines and interactive reports to identify sales patterns and product performance insights.
- Github Link -**
<https://github.com/Buwanekafernando/Supermarket-data-warehouse->

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

- HND in Information Technology - 2024
- BSc (Hons) in Information Technology Specializing in Data Science - 2023-2026 (Currently)

Thurstan College, Colombo 07

G.C.E Advanced Level Examination - 2021

TECHNICAL EXPERTISE

- **Programming Languages:** Java, Kotlin, Python, JavaScript, SQL, C++ , PHP
- **Web Development & Frameworks:** MERN stack, React.js, Spring Boot, FastAPI, WebSocket , Vuejs, TypeScript
- **Databases:** MongoDB, Oracle, MySQL, SQLite, MSSQL, XAMPP, PostgreSQL
- **Data Science & Machine Learning:** ETL/ELT pipelines, Pandas, NumPy, Scikit-Learn, Tensorflow, NLP, Random Forest, Regression, LLMs, K-Means clustering, RoBERTa
- **Tools & Platforms:** VS Code, GitHub, Cloudinary, Visual Studio, Android Studio, RStudio, Figma, Microsoft SQL Server Management Studio, Power BI, Postman, Jupyter Notebook, Ardiono
- **Cloud & APIs:** Google Cloud Storage, REST APIs, AWS, Microsoft Azure, Oracle Live SQL , Google Maps API

LICENCES AND CERTIFICATIONS

- **Microsoft Azure - Visual Machine , Configure Visual Network** - Microsoft Learning - Issued August 2025
- **AWS - VPCs , Computer Solution , Network Concepts, File System** - AWS SimuLean - Issued August 2025
- **Machine Learning and Advanced AI Techniques** - Alison - Issued July 2025
- **Generative AI and Large Language Model for Beginners** - Alison - Issued July 2025
- **Data Science Fundamentals - Essential Tools & Concepts** - Alison - Issued July 2025
- **Introduction of Data Science** - Cisco - Issued December 2024

ACHIEVEMENTS

- **AIESEC in SLIIT** - Best Sustainable Event Awards - Corporate Connect '25
- **AIESEC in SLIIT** - Member of the Month for December 2024
- **AIESEC in SLIIT** - Emerging OGTA Leader - Nominees
- **SLIIT Code fest** - Code fest Senior Coding Contest (2019) - Pass

VOLUNTEERING POSITIONS

- **Thurstan College IT society** - Treasurer (2020 - 2021)
- **Thurstan College Commerce society** - Committee member (2020 - 2021)
- **Interact Club of Thurstan College** - Member (2019 - 2020) , Finance Director (2020 - 2021)
- **Rotaract Club of Colombo MidCity(2021-2024)** - Sergeant at Arms (2022 - 2023) Joint Treasurer (2023 - 2024)
 - Organizing Committee
 - 34th Installation Ceremony as Organizing Committee
 - 35th Installation Ceremony as Organizing Committee
 - 35th Charter Celebration as Organizing Committee Treasurer
 - El Talento as Organizing Committee
- **AIESEC in SLIIT(2024-2025)** - OGTA Team Member (2024 - 2025), BD Team Member (2025)
 - Corporate Connect 25'- Organizing Committee Vice President for Logistics and Organizing Committee Vice President for Partnership Development

INTERESTS

- Data Engineering
- AI/ML Engineer
- Machine Learning Enginner
- Data Analyst
- Data Scientist
